Did you know...?

Methanol-to-olefins (MTO/MTP) represents nearly 15% of global methanol demand and is viewed as the incremental appetite for methanol. Argus tracks weekly operating rates for this critical sector as outages can have a big impact on industry demand and pricing.

**Industry Methanol Demand – 2017**

- Total methanol demand = 78mn t (excluding CTO/CTP)
- 14% MTO/MTP
- 0% All Other

**Merchant MTO/MTP Weekly Methanol Demand ’000t**

- Annualized Consumption: 10.5mn t and 10.7mn t
- Excludes idled MTP capacity as of 1/1/2017
