## Argus Marine Fuels Outlook

Your key source of forecasts and insights on marine fuels in preparing for IMO 2020.

### The service

Argus Marine Fuels Outlook is a quarterly service, which provides news and insight, fundamentals and price forecasts on marine fuels two years ahead.

Argus' global network provides excellent coverage of all the latest developments as the market responds to IMO 2020. Updates on scrubber investments, refining announcements, enforcement procedures and port plans are processed by the consulting team, using a range of proprietary tools, to deliver actionable insights and analysis.

### Price forecasts

Quarterly price forecasts and crack spreads covering marine fuels in the key bunkering hubs. Including our forecast of 0.5pc sulphur fuel oil and 0.5pc sulphur MGO prices from Q1 2020.
